Subject: Comments Regarding Federal Regulations Including Federal Regulations Affecting Small Business

E-Mail To Mr. Mitch Daniels
Office of Budget / Management

From: Bob Thomas: Small Business owner in California
March 26, 2002

Dear Mr. Daniels,
I enjoyed watching the President's speech on March 19, 2002 to the woman's entrepreneur conference in Washington D.C. He mentioned hurdles small business's encounter in their attempt to do business with the Federal Government: namely the government "bundling" contracts. Since March 5th, I have been turned down by these agencies and business as they "bundle" contracts and a couple government agencies have told me they do not work with small business.

Mr. Daniels, when the President makes changes to remove the government bundling and become small business friendly, you will need a test business / small business to see if your changes are working. Would you please use my company.

Best Regards,
